Semi-natural Trees

Nature, reimagined for modern interiors

Semi-natural trees combine authentic wooden trunks with durable recycled foliage to create lifelike, maintenance-free trees for any indoor space. Each trunk is carefully dried for long-term durability, while every composition remains unique in form and texture. Available in heights up to 6 meters and species such as Olive, Acacia, Pine, Cherry, Birch, Hornbeam and Bonsai, they bring sculptural elegance and biophilic presence to lobbies, retail and wellness environments.

Specifications

	Height	Up to 6 m (19.7 ft)
	Maintenance free	No watering, no sunlight or artificial light, no pruning or trimming required
	Conditions of use	Indoor use only. Keep away from sunlight, water, heat and physical contact Recommended humidity: 20% to 80%
	Life span	Maintains its natural form, color and texture for up to 15 years
	Natural & Safe	Made in Europe · Non-toxic · Non-allergen
	Materials	Natural tree trunk · Faux foliage from recycled PP or silk

Creation process

The semi-natural trees are made from solid trunks of plants that either died naturally, were affected by illness, or could not be used in carpentry or boat production.

After harvesting, the bark undergoes a high-temperature drying process to eliminate insects and moisture, ensuring the product's durability and longevity. This ensures that each top-quality tree is not just a stunning piece of décor, but a lesson in sustainability.

Once the trunk is ready, it is being enhanced with natural tree branches and artificial foliage.
